RESPONSE
ENGINEERING
ASSISTANCE**

C&R
ENGINEERED SOLUTIONS INC.

DO YOU NEED THE IMMEDIATE ASSISTANCE OF A PROFESSIONAL ENGINEER?

1. To resolve a work refusal involving unsafe equipment.
2. To resolve a Ministry of Labour Stop Work Order.
3. To resolve a Ministry of Labour Order to have the equipment inspected by a professional engineer.
4. To provide technical inspection and analysis in support of an accident investigation.
5. To resolve deficiencies identified in a W.S.I.B. Workwell Audit.
6. To provide assistance in evaluating equipment against current regulations and standards.
7. To determine if/how an area should be classified as a hazardous location.
8. To perform an immediate Pre-Start Health and Safety Review of equipment to satisfy Section 7 of O. Reg. 851.

WE CAN HELP!

We offer Rapid Response Engineering Assistance 24-7 to provide the technical support you need to quickly resolve these situations.

C&R Engineered Solutions Inc. is authorized by the Association of Professional Engineers of Ontario to offer professional engineering services. We specialize in the safety compliance of sophisticated equipment and processes, including factory automation and robotics, in a variety of industries.

Don't hesitate to call us when you need a rapid response to a safety compliance engineering issue!
